Inaugural NYSDA House of Delegates

The historic first meeting of the newly-formed NYSDA House of Delegates is scheduled to take place in Chicago, June 9-12, 2010. Chicago was chosen for this significant event because it is the home of the American Dental Association. During the meeting, representatives to the inaugural NYSDA House will have a chance to tour the ADA headquarters and connect with the national leaders of our tripartite.

SDDS Appears at Brooklyn College Health Fair

On April 26, 2010, Community Health Education students at Brooklyn College hosted a health fair to address the healthcare needs of their college community. These students identified oral health as a serious health issue for Brooklyn College. In an effort to educate their community about the importance of oral hygiene and its relationship to general health, the students extended an invitation to Second District to provide oral health education during the event. SDDS recognizes members Drs. Michael Cali, Angela De Bartolo, Sari Rosenwein and Stuart Segelnick for their dedicated volunteer services to the community promoting oral health awareness to the 150-200 students who attended the health fair.

SDDS Bulletin – June/July 2010 – Page 2
CRESO Corner

by Martin Schnee

I am noticing an alarming situation in many dental offices. There are many dentists and dental assistants who don’t have any familiarity with the radiation regulations in Article 175 of the New York City Health Code. Section 175.04 requires that the owner of a radiation facility instruct all workers in the operating procedures applicable to work under the registration and in the health protection problems associated with exposure to radiation, and in precautions to minimize exposure. The code section further states that a record of these instructions shall be maintained and is required annually. One portion of the regulation even states that a Health Department representative can privately interview workers to see if they are familiar with these rules.

How many of you know the regulations for pregnant women? Under what conditions should the x-ray unit not be operated? Have you instructed your staff where to stand during the x-ray exposure? Do you know that you have to see and hear that an exposure is being made? Have you instructed your staff how to position the cone? Have you instructed the staff about setting the proper techniques based on patient size? These and many more items need to be addressed and documented in order to comply with the regulations. During a typical inspection by a CRESO or the City Health Department this topic will not be addressed. If a situation should arise at your facility, especially with a worker, this regulation will come up and if you have no documentation indicating that you have trained your staff at least once in radiation safety and the regulations, you will be dead in the water.

If you have any questions concerning this topic I would be happy to answer them. My cell number is (718) 986-4996. My email address is Scientific09@ad.com. My web page is www.NYCRESO.com.

Mr. Schnee is a private consultant providing radiological training and compliance advice. The advice given here does not necessarily represent the advice of the Second District Dental Society.
CONTINUING EDUCATION COURSE #2010-21
Hilton Garden Inn, Staten Island
Friday, June 4, 2010
9:00 AM - 4:00 PM  MCEU - 6 HOURS
Title:  “CT-Guided Dental Implant Surgery”
Clinician:  Alex M. Greenberg, D.D.S.
Visiting Lecturer, Staten Island University Hospital
Synopsis:  This presentation will provide clinicians with a review of the basic concepts of CT scanning of the jaw. Participants will learn about prosthetic guided dental implant treatment planning with radiographic guides, as well as the use of software for treatment planning with CT scans for dental implant placement. Clinical applications for CT-guided dental implant surgery, such as flapless and flap based procedures, will be reviewed.

Upon successful completion of this course, attendees will have a better understanding of the use of CT scanning for dental implant planning and surgical procedures.

CONTINUING EDUCATION COURSE #2010-22
Fort Hamilton Community Club, Brooklyn
Friday, June 11, 2010
9:00 AM - 12:00 NOON  MCEU - 3 HOURS
Title:  “Pre-Restorative Periodontics: Natural Teeth to Implants”
Clinician:  Robert S. Schoor, D.D.S.
Clinical Associate Professor, Department of Periodontology and Implant Dentistry, New York University College of Dentistry
Synopsis:  This course will review posterior and anterior site development, esthetics as treated peri-odontally and the supplementation of gingival soft tissues around implants. It will also cover managing peri-implant inflammation, surgical crown lengthening and concepts of GBR using newer allografts, alloplasts and autogenous blocks. Attendees will gain familiarity with peri-surgery, sinus diagnosis and techniques for effective sinus elevation.

In the discussion of periodontology for restoration, this seminar will demonstrate occlusal adjustment after a diagnosis of occlusal traumatism. Upon successful completion of the course, attendees will learn the importance of periodontic site preparation for restorative dentistry.

CONTINUING EDUCATION COURSE #2010-23
Fort Hamilton Community Club, Brooklyn
Thursday, June 17, 2010
7:00 PM - 9:00 PM  MCEU - 2 HOURS
Title:  “Treating Pediatric Patients in the 21st Century”
Clinician:  Jeffrey M. Galler, D.D.S.
Visiting Lecturer, Staten Island University Hospital
Synopsis:  Being able to treat children skillfully, efficiently and cheerfully is the best practice builder for a general dentist. This lecture will present behavioral methods for attaining cooperation from pediatric patients and their parents, as well as instructional information for helping parents understand oral health for their children.

Knowledge of newer clinical techniques and procedures is essential for treating children. Top-ics that will be covered include gentle local anesthesia, pulpotomies, newer matrix systems, restorative materials and space maintainers. Upon successful completion of this course, attend-ees will learn about newer clinical techniques and materials and will learn skills that can make a child’s visit more pleasant and productive.

DATE CHANGE!
The November 2010 Scientific Meeting has been moved from its original date of November 11, 2010 to Thursday, November 18, 2010. Venue, time and featured clinician remain the same. Please mark your calendars!

CONTINUING EDUCATION COURSE #2010-26
Fort Hamilton Community Club, Brooklyn
Friday, June 25, 2010
8:30 AM - 12:30 PM  MCEU - 4 HOURS
Title:  “Risk Management”
Clinician:  Leslie Seldin, D.D.S.
Past Chairman, SDDS Council on Dental Insurance
Synopsis:  The continuation of risk management courses serves the purpose of reviewing the basic legal requirements for office activity, introducing changes as well as new aspects of the standard of care and discussing the ever increasing restrictions and requirements placed on dental practice by governmental and regulatory agencies. Risk management is a dynamic concept and is always changing. Dr. Seldin’s experience in the world of malpractice litigation will provide attendees with a recipe for office operation and patient treatment that will minimize the opportunity to find themselves the object of litigation.

Completion of this course may entitle dentists to a discount on their liability premiums for a three-year period from OOB, TIG Insurance Company, MLMIC and many other insurance carriers providing coverage in the New York area. Please check with your carrier.

SPECIAL INTEREST COURSE

SDDS Headquarters, Brooklyn, NY (9:00 AM - 1:00 PM)
#2010-25 Friday, June 25, 2010
#2010-26 Friday, July 9, 2010
Hilton Garden Inn, Staten Island, NY (9:00 AM - 1:00 PM)
#2010-24 Friday, June 18, 2010
#2010-27 Friday, July 16, 2010
All CPR courses offer five (5) MCEU.
Title:  “CPR & Medical Emergencies in the Dental Office”
Instructor:  Michael Kaliroff
Certified Instructor, American Heart Association
Synopsis:  This course provides dentists and their staffs with the knowledge and skills needed to properly respond to cardiopulmonary and other medical emergencies which can occur in dental offices. The specific advantages and disadvantages of performing CPR within the dental operatory will be discussed. This program utilizes hands-on practice sessions for all participants. Topics to be covered will include heart attacks and strokes (signs and symptoms), sudden cardiac arrest/defibrillation, airway obstruction (choking), respiratory emergencies, anaphylactic reactions, emergency drug kits, and more.

Upon successful completion of this course, participants will gain the knowledge and hands-on experience needed to administer CPR safely and effectively. Participants will receive a 2-year certification card from the American Heart Association as well as continuing education credits. Completion of this course will also satisfy the New York State Education Department’s requirement for licensed dentists.

ENROLLMENT IS LIMITED, SO PLEASE REGISTER EARLY!

Are you planning to attend a course at the
Fort Hamilton Community Club?

The Fort Hamilton Community Club is located on a military base. You may be randomly stopped by the Military Police on duty upon entering the base or while on the grounds. Please have your photo I.D./driver’s license, current registration and insurance card available for inspection.

#### Why the other side hates to see us on your side.

- We go to bat for you and preserve your good name.
- We aggressively defend and resist any payment for frivolous claims.
- We are a tough team to beat and we don’t give up.
- We have the finest defense attorneys in the State, respected medical experts, and the country’s largest and most experienced claims staff.
- We are not just your liability insurer. We are your legal guardians.

We are MLMIC. Our defense never rests.

MLMIC is the one ally you want when you enter the courtroom and your practice and reputation are on the line. The jury may be out. But, you can feel confident, knowing that no other insurer in New York State provides the protection and dependability of MLMIC. MLMIC’s dedicated underwriters, claims personnel, risk management consultants, and defense attorneys are always responsive to your needs. And, the NYSDA–MLMIC Program, now in its 18th year, is a program run by dentists for dentists.
The Second District Dental Society, in conjunction with the Dental Auxiliary Training Center, is pleased to announce the 25th year of continuation of the comprehensive dental assisting training course offered for the auxiliary staff of the Second District membership.

COURSE NUMBER: 2D101-3 (Wednesday evenings) for 15 weeks
DATES: *September 8 through December 15, 2010
TIME: 6:30 PM to 9:30 PM
VENUE: SDDS Headquarters, 111 Fort Greene Place, Brooklyn, NY 11217
TUITION: $850 (Make check payable to DATC/2D)
TEXT, LAB & INS FEES: $375 (Make check payable to DATC, will be collected on the first night of class)

Fundamentals of Chairside Dental Assisting Course

To meet the demand for trained dental assistants, the Second District Dental Society co-sponsors this course to assist interested students who have a desire to prepare and work in this exciting career field. Dentists interested in hiring DATC students register their dental assisting jobs and positions with DATC. The course is designed to train already employed dental assistants who have limited or no formal training and those who are interested in preparing to take the DANB Exam.

This comprehensive course will augment the on-the-job learning experience by giving the theoretical background of the profession of dental assisting and also provide hands-on training in a classroom setting. The course has been structured in such a way that the total time required for completion is only 15 sessions totaling 45 hours, plus a 15-hour independent study project. The course is a total of 60 hours. Topics covered include:

- Dental terminology
- Infection control
- Dental specialties
- 4-handed dentistry
- Dental office emergencies
- Theory of Radiology
- Disease transmission
- Operative dentistry
- Dental instrumentation
- Preventive oral hygiene

Course certificate of achievement will be granted upon successful completion of required course work, attendance and final exam.
